

Madison Park Technical  
Vocational High School

# RoxMAPP

## EARLY COLLEGE HIGH SCHOOL

*Helping high school  
students prepare for  
college academics, and  
earning college credits!*

## Bunker Hill Community College

*Students in Early College programs participate in an accelerated pathway program from high school to college, allowing them to graduate high school with up to 30 college credits.*

### What is the RoxMAPP Early College High School Program?

*RoxMAPP Early College High School (RECHS) is a fast track to an Associate Degree that blends the high school and college education experience. Students gain the advanced skills that are expected in today's workplace. Students in the program can expect a rigorous yet supportive learning environment that combines the time it takes to complete high school and the first two years of college.*

*RECHS offers a valuable opportunity for students who are often under-represented in college: minorities, students from low-income families, and those whose parents never attended college.*

### All Students Welcome!

The RECHS program is open to all students at MPVTHS. There is no minimum GPA requirement for entry into the program to ensure that prior performance is not a barrier to future success and to provide options to students for whom the traditional high school experience is not a good fit. Accuplacer test scores also are not a barrier to participation, but are used to determine college course enrollment options and appropriate classes for which a student is eligible. Entry is possible at the start of each semester. any given semester.

### Early College High School Facts

- Free College Classes / Credits
- Free Textbooks
- Free Transportation
- Free Tutoring and Mentoring
- Earn up to 60+ college credit hours
