

## Edwin FAFSA Reports

October 2021

To apply for federal and state financial student aid, such as Pell Grant grants, Work Study, and educational loans, students are required to complete the Free Application for Federal Student Aid (FAFSA®) form. Completing and submitting the FAFSA form is free and easier than ever, and it gives access to the largest source of financial aid to pay for postsecondary education.

The Massachusetts Departments of Elementary and Secondary Education and the Department of Higher Education, in partnership with the Massachusetts Executive Office of Education, have developed reports that allows schools and districts to monitor the status of student submission and completion of FAFSA. School counselors and other educators can use this alongside other college and career readiness resources to support students in the college application process.

Two FAFSA reports are now available for districts and high schools in EDWIN Analytics: **FAFSA Completion Report Summary CR307** and **FAFSA Completion Report Detail CR607**.

The reports are compiled from FAFSA data from the US Department of Education via the Massachusetts Department of Higher Education matched to data submitted by districts, such as Student Information Management System (SIMS) and other sources. The information is dynamic and updated weekly; as a result, representation may change from what was shown in an earlier reporting period. The date the FAFSA data was updated is noted on both reports. Matching techniques have been applied to current high school student records to maximize identification of students. Despite these matching techniques, there may be unmatched records; the reports may list some students as “Not Found” although they have completed a FAFSA. For school year 2021-22, the reports include demographic information to help set goals and improve equitable outcomes. (updated when October 2021 SIMS is complete)

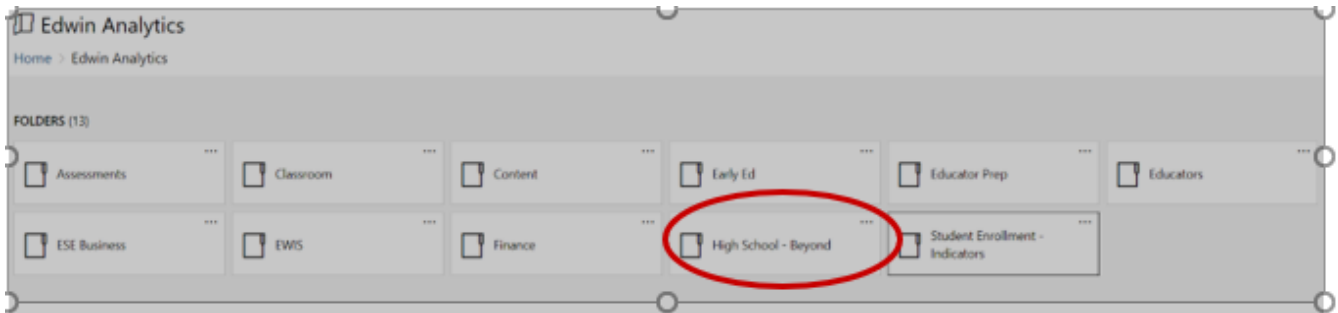

### Access to Edwin Analytics

Both FAFSA reports are in Edwin. Access to Edwin is determined on the school and district level by a [directory administrator](#). District and/or School “Administrator Role”, which allows for access to student level data, is necessary to view **FAFSA Completion Report Detail** and most helpful to fully use both reports.

## How do I find these reports?

There are several ways to find the reports. The first is to type FAFSA into the Search in Edwin; you will find your choice of the two reports:

Another option is to click on the High School & Beyond folder, then the Postsecondary Readiness folder:

## A note on the FAFSA process and the terminology in these reports:

When students submit a FAFSA, the US Department of Education marks it as 'Complete' or 'Incomplete'. FAFSAs marked Incomplete may have some level of detail from US Department of Education about what, specifically, is incomplete. These reasons may include one or more of the following: No Signature, SSN and/or Name Mismatch, and Missing Information. If no FAFSA is found for a 12<sup>th</sup> grade student (or beyond grade 12 special education student) enrolled in Massachusetts public high school, it is reported as Not Found. This could mean that a student has yet to submit a FAFSA, or that no submitted FAFSA was found with the matching techniques used for this report. The user should discuss this situation with the student.

## FAFSA Completion Report Summary (CR307)

Selecting the **FAFSA Completion Report Summary** brings you to a prompt page.

Home > Edwin Analytics > High School - Beyond > Postsecondary Readiness > CR307 FAFSA Completion Report Summary

Award Year	2021-22	▼
District	ABINGTON	▼
High School	ALL	▼

Fill this out for your district or school. Currently, FAFSA data is now available for the 2022-23 Award Year, which is the current FAFSA application cycle prospective college students are filing to attend postsecondary between July 1, 2022 and June 30, 2023. After filling out the prompt page, click 'View Report' for the report.

The **FAFSA Completion Report Summary** gives an overview of FAFSA completion for the school(s) and district selected. This summary includes the number of FAFSA's Submitted, and a breakdown of the number Completed, Not Completed and Not Found. The percentages shown are based on the number of 12<sup>th</sup> or SP student enrolled in your district according to student claiming. If you have access to student level data, the school name is a blue hyperlink; clicking on this link will bring you to the **FAFSA Completion Report Detail** for these students.

CR307 FAFSA Completion Report Summary

District: SHADY GROVE

[Contact Us](#)

**2019-20 FAFSA Completion** SHADY GROVE

■ Complete   
 ■ Incomplete   
 ■ Not Found

	# of students (12th grade & SP)	Submitted	Complete	Incomplete	Not Found
State	74,804	23,714 (32%)	22,944 (31%)	770 (1%)	51,318 (69%)
District	349	139 (40%)	135 (39%)	4 (1%)	215 (62%)

Disclaimers: Data in these reports are compiled from SIMS and other sources and matched with FAFSA data provided from the US Department of Education. Various matching techniques have been applied to maximize identification of students. Despite these matching techniques, the report will have students listed as 'not found' who may have completed a FAFSA but are not recorded here due to those matches not being complete.

The information is dynamic. FAFSA information is updated weekly, and number of students reflects current enrollment and is updated daily. As a result, representations may be different than shown in an earlier reporting period.

Number of students reflects current enrollment of 12th grade students and SP students (or, students in Special Education beyond 12th grade).

FAFSA data last updated: 12/12/2018  
 Data suppressed if total number of students is 10 or less.

District Name	High School Name	# of students (12th grade & SP)	# Submitted	% Submitted	# Complete	% Complete	Incomplete	% Incomplete	Not Found	% Not Found
SHADY GROVE	<a href="#" style="color: white; text-decoration: underline;">SHADY GROVE HIGH</a>	349	139	40%	135	39%	4	1%	215	62%

## FAFSA Completion Report Detail (CR607)

The **FAFSA Completion Report Detail** has a prompt page interface and filter similar to the summary report, with the option to choose one or any number of high schools (for districts with multiple high schools) and select FAFSA status (e.g. only identify students with Incomplete FAFSAs). After filling out the prompt page, click 'View Report' for the report.

Home > Edwin Analytics > High School - Beyond > Postsecondary Readiness > CR607 FAFSA Completion Report Detail

Award Year: 2021-22

District: ABBY KELLEY FOSTER CHARTI

School: ALL, ABBY KELLEY FOSTER CHARTI

FAFSA Status: ALL

In the example below, a user can see the student name and SASID with the completion status. The report also includes subgroup information and dates of FAFSA submission and completion to better target and set goals around equity for all students.

First Name	Last Name	MI	SASID	DOB	Gender	Race	Ecodis	ELL	SWD	High Needs	FAFSA Completion Date	Submitted FAFSA	Status	FAFSA Detail
Jen	Davis	E	<a href="#">9100672</a>	1/17/01	F	Black/African American	Non-Economically Disadvantaged	Y	N	Y	11/03/19	Y	Complete	
Sam	Hays	D	<a href="#">9103664</a>	10/6/02	F	Black/African American	Non-Economically Disadvantaged	N	N	N	10/06/19	Y	Complete	
Keri	Shaw		<a href="#">1100667</a>	5/19/02	F	White	Economically Disadvantaged	N	N	N	10/24/19	Y	Complete	
Ali	Pire	G	<a href="#">1100554</a>	12/1/01	F	Black/African American	Economically Disadvantaged	N	N	Y		Y	Incomplete	Missing Information
Max	Dell		<a href="#">3100667</a>	6/5/01	M	Black/African American	Non-Economically Disadvantaged	N	N	Y		Y	Incomplete	No Signature
Tim	Gons	L	<a href="#">7100554</a>	11/2/02	M	Asian	Non-Economically Disadvantaged	N	N	N		N	Not Found	

The SASID is a blue hyperlink; clicking on this link brings a user to the PR600 Student Profile Report with details of that student’s academic history. Remember, students with status listed as ‘Not Found’ in some cases may have completed FAFSA but were not matched to other records in the matching algorithm.

### Additional Non-Matched Students:

This report now includes students who submitted a FAFSA and reported your high school on their FAFSA although according to our algorithm were not matched to students currently enrolled in your high school. They appear at the end of the report in their own table. As these data are not matched to SIMS data, additional demographic information is not available.

These *Additional Non-Matched Students* submitted a FAFSA but the information they entered could not be matched to a SASID through our automated process (e.g., their DOB was different, variations in name spellings). The students in this table may correspond to students identified as "not found" in the main table of the report. They may also include former students who are not currently enrolled in your school. You may use this information for your internal tracking of FAFSA completion. If you realize that information for a current student in your Student Information System is incorrect (e.g. your SIS has the wrong DOB), corrections made in your system may enable the automated process to match the student in the future.

Additional Non-Matched Students								
First Name	Last Name	MI	SASID	DOB	Gender	Submitted FAFSA	Status	FAFSA Detail
JANE	SMITH	NMN		06/05/00	F	Y	Complete	
BOB	DAVIS	M		07/13/98	M	Y	Complete	
INEZ	BROWN	M		07/24/99	F	Y	Complete	

### Additional Tips

To see additional student records, use navigation tools at the bottom of the records listed on the screen.

There is also the capacity to download the entire report as an Excel file for local usage.

## Frequently Asked Questions

### **How are the Edwin reports aligned to or different from the federal report?**

Federal reports are available at this link:

<https://studentaid.ed.gov/sa/about/data-center/student/application-volume/fafsa-completion-high-school>

The federal reports include an aggregate view and are based on high schools as reported by students, so a high school may have multiple entries if a student reports alternative versions of a high school's name. Completion rates are calculated using an estimate of graduating seniors based on data from the National Center of Education Statistics data, and only schools with five or more completions are shown in the report.

The reports in Edwin include student-level and aggregate views of FAFSA completion and completion rates are based on current school enrollment. For students whose FAFSA is incomplete, the student-level report also includes details of what is incomplete. Students are included in the report if they are currently enrolled in your school, although they may have provided a different high school on their form.

The Edwin student-level report also includes students who provided your high school name on their FAFSA, although not currently enrolled in your school based on SASID. These are shown in a different table for clarity and are not counted as part of the completion rate.

### **How is FAFSA data matched to SIMS data?**

A matching algorithm is used to pair students' federal data to Massachusetts SIMS data for students currently enrolled in 12th grade and Special Education students beyond 12th grade. The matching includes name and date of birth (DOB), so if these differ in the two data sources, the student will be listed as 'Not Found'. If there is incorrect information (such as name or DOB) in the Edwin reports and that is corrected locally, the match may be improved, and you will see the corrected data in the near future.

### **Can Edwin reports be downloaded in an Excel format?**

Yes, reports can be downloaded. In the 'new' Edwin Analytics, on the prompt bar there is a "save" icon that allows reports to be downloaded to a spreadsheet.

### **What about undocumented parents of a student who has green card/or is a DACA student?**

A student who has a "green card" typically means a student is considered an eligible non-citizen. If parents are undocumented, issues may arise if that student is dependent, whereby parental information would be required on FAFSA. If student is independent, parental information is not required on FAFSA. Deferred Action for Childhood Arrivals (DACA) students are not eligible for Federal financial aid, though they may file a FAFSA by virtue of having a Social Security Number. By not qualifying for Federal financial aid, a DACA student is also ineligible for the vast majority of state aid.

**If a student accidentally did the FAFSA for the previous year instead of this year, will they still be counted as a senior completing their FAFSA? Or because of their mistake, would they be put in the previous graduating class as completing their FAFSA and doing a renewal?**

FAFSA Completion reports can be run for the 2019-2020, 2020-21, 2021-22 and 2022-23 award year. The 2022-23 report will include current 12th and SP students who submitted a FAFSA for the 2022-23 award year, regardless of if it is an initial or renewal FAFSA.

**Can one counselor under special circumstances access student-level data for more than one school or district?**

Access to Edwin is determined at the local level. A counselor would need to work with the Edwin Analytics contacts in the schools or districts of interest to discuss access.

**If I am non-district personnel, can I access these reports?**

K12 education providers of additional services, such as Collaboratives, Special Education Agencies and DYS, can get access to Edwin reports (See <http://www.doe.mass.edu/edwin/securityroles.docx>). Other non-district staff may work with schools/districts to determine data sharing agreement and access to Edwin reports.

**I have heard that US ED has a mobile app for students & families. Where can I find more?**

Please refer to link below for more information.

<https://studentaid.ed.gov/sa/about/announcements/fafsa-mobile-options>

## **Additional Information**

If you have any questions about using this report, please email [ewis@doe.mass.edu](mailto:ewis@doe.mass.edu). For other information about FAFSA or financial aid, please go to the [Massachusetts Office of Student Financial Assistance](#).
